About This Game

The Cinema Rosa is a **story-driven adventure game** set in an abandoned cinema. Explore a unique, art deco cinema filled with dark mysteries, puzzles and ghosts. Can you bring peace to these haunted hallways and bring back the Golden Age of Hollywood, or will the cinema fall into ruin and decay?

Uncover the history of two lovers who bought the cinema as a passion project, before things went downhill. Follow the story of their relationship as it unfolds alongside the story of the cinema's decline, the two stories working as parallel narratives.

The game explores themes of loss, romance, nostalgia and regret, aiming to take the player on an emotional journey through the psychological effects of a relationship.

Key features:

- 2 - 3 hours of play time
- Powerful, emotional storytelling
- Puzzles that test your logic and skill
- Items to examine and lore to explore

-
- Complex VFX, including ghosts and haunted rooms
 - Cinematic cut-scenes
 - Dynamic, interactive environments
 - Classic references to old cinema and Hollywood
 - Music inspired by Bioshock

Discoveries to be made around every corner. As you solve puzzles, you will begin to uncover the history of the cinema. The game world will become dynamic and changeable. Each room can be rebuilt and restored, giving you unprecedented control over the game's environment. It's a truly cinematic experience.

Find clues and hints about the history of the cinema in handwritten notes, postcards, phones and other objects. Collect objects for puzzles and figure out how they should be used.

I am recommending Cinema Rose, previous problems have been addressed.

These devs cared enough to immediately address issues.

The atmosphere, graphics, and voice over are wonderful!

The atmosphere and graphics are spot-on. Dilapidated when they should be, crystal clear when not. The voice acting is sublime!

The theater design (love the posters!) is a throwback to cinema days long gone but recreated in perfection here. Game play is smooth and all mechanics worked well for me.

Game length was added.

I am so impressed at how hard the devs worked to add content now, addressing bugs etc. Well done.

I am still waiting for a patch so I can finish a game I bought last year! Those devs sold their game and went on to the next leaving a game unplayable for many.
